Valois,

Awesome, thank you! From my first look through this appears to be what we were after. I'll pass this along to Kimi as well, but I think this is exactly what she and I had in mind.

Hope you have a great Fourth of July!  
Parks

Hi Park,

This is probably more than you need, but I have been meaning to put this info together for my own reference. The attached PowerPoint walks you through the sacred sites and ends with the 20-mile buffer map from EJ Screen. If none of these maps is quite right for the briefing, please let me know & I can put together a different one.

I have also attached one of the two references I used for the first two slides. I'll send the second in a follow-up email. It is a large file.
